## Evening Brief

Date: Thursday August 16, 2018

---

### Weather Summary

Showers and thunderstorms will spread into much of Idaho on Friday and continue across eastern NV and Utah. These storms will mostly be on the wetter side, especially over western Idaho and eastern NV. Storms may continue into the evening hours.

Dry gusty westerly winds will move into far western NV on Friday.

Drier, slightly cooler NW winds will spread throughout much of the region on Saturday bringing a decrease in thunderstorm activity.

---

### Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	5	Light Initial Attack Activity
National	5	,GB New Fires and Acres: 27 fires 3,491.6 acres; 7,426 acres large fire growth

---

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

**Fuels and Fire Behavior advisory has been issued for [Northern Great Basin](#)**

### Fuels/Fire Potential

A Fuel/Fire Behavior advisory has been issued for North/West Nevada into Idaho and Northwest Utah. This advisory can be found here: <https://gacc.nifc.gov/gbcc/fuels.php>

Widespread areas of critically dry fuels continue across the northern half of the Geographic Area. ERC's are mainly in the 80th - 97th percentile across Northern parts of NV, northern half of UT and ID, where many areas are near or just below record highs for the time of year. Wyoming ERC's are also steadily rising and are approaching seasonal record levels from the 80th - 96th percentiles.

Sagebrush Live Fuel Moisture levels across most areas are near early August normals, and grasses are cured in most areas, even up to 7500 ft. in Idaho and Wyoming. ERC's have risen above the 50th percentile across most of the southern third of Nevada, Utah, into the AZ Strip, with several stations in the 70th-90th percentile, which is near record levels for this time of year in those southern areas. Although increasing moisture across southern areas should knock fuels down considerably.

## Resources:

### Aviation within the Great Basin

- 1 VLAT's, 4 LATs, 2 CL-415
- 20 SEATs, 2 Fire Bosses
- 9 Type 1 Helicopters / 9 Committed
- 8 Type 2 Helicopters / 6 Committed
- 20 Type 3 Helicopters

### Crews Committed within the Great Basin

- 14 IHCs Committed / 0 Available
- 26 T-2 IAs Committed / 1 Available
